About CTRM

Established under the Directorate of Research, the Centre for Training in Research Methods is dedicated to equipping research scholars with essential skills. Our primary focus is to organize workshops on research methodology, offer courses covering publication ethics, and provide consistent training in utilizing statistical tools and programs for effective data analysis and modeling methods.

Emphasizing regular engagement, our Centre is committed to fostering a culture of continuous learning and development among research scholars. Explore the opportunities to enhance your research capabilities with us as we strive to contribute to the advancement of scholarly pursuits within the academic community.

About the Resource Person

Mr. Dhruvaraj Subashchandran is a computer scientist with expertise in Ecological applications of Machine Learning, Artificial Intelligence, and Data Science. He brings over 20 years of professional experience in the field, along with his passion for nature and wildlife conservation.

Mr. Subashchandran is actively involved in environmental efforts through his leadership role as the Managing Trustee of the Aranyakam Nature Foundation, an NGO based in Kochi.
