

Ph.D. (ZOOLOGY) SYLLABUS

Paper I- RESEARCH METHODOLOGY

Unit – 1. Research

- 1.1 Meaning, objectives, types and significance
- 1.2 Identifying gap areas by literature review
- 1.3 Selection of problem, defining the problem
- 1.4 Ethics in Research

Unit – 2. Research design

- 2.1 Principles of experimentation
- 2.2 Formulation of research problem
- 2.3 Design of experiments and testing of hypothesis

Unit – 3. Data collection and analysis

- 3.1 Sources of data- primary, secondary and tertiary
- 3.2 Methods of data collection- sampling methods, sampling size, sampling error
- 3.3 Data processing and analysis
- 3.4 Statistical analysis: Softwares- SPSS, R- program

Unit – 4. Scientific documentation

- 4.1 Types of report- technical reports and thesis
- 4.2 Literature collection and documentation
- 4.3 Layout- introduction, review of literature, methods, results, discussion, conclusion, references
- 4.4 Oral presentation- planning, presentation, technical considerations, power point presentation

Unit – 5. Intellectual property and ethical issues

- 5.1 Intellectual property right and patent law, copyright, royalty
- 5.2 Reproduction of published documents, pattern of citation, style manual for citation, citation index, impact factor, acknowledgement
- 5.3 Plagiarism- softwares for checking plagiarism
- 5.4 Ethical issues: ethical committee in animal experiment and clinical trials

Unit – 6. Computer Applications

- 6.1 Using excel for data entry and analysis- data entry, analysis, graphical representation
- 6.2 Reference Management Tools- End note, Zotero

Ph.D. PRELIMINARY QUALIFYING EXAMINATION, 2022
Model Question Paper

Paper I-RESEARCH METHODOLOGY

Time: 3 hours

Max marks: 70

(I) Answer any two of the following

1. Write an account of intellectual property rights. Add a note on its importance.
2. Explain different types of scientific documentation.
3. Give an account of different methods used for data collection.
4. Give an account of principles of experimental design.

(2 x15 = 30 marks)

(II) Write short essay on any two of the following

5. Explain the role of ethical committee in animal research and clinical trials
6. Give an account of different statistical softwares used in biological research.
7. Explain the factors to be taken into consideration while preparing and delivering an oral presentation
8. Explain need for preventing plagiarism. What are the softwares used for checking plagiarism?

(2 x10 = 20 marks)

(III) Write short notes on any four of the following

9. Review of literature.
10. Testing of hypothesis.
11. Copy right.
12. Impact factor.
13. Citation index.
14. Royalty.

(4x5 = 20 marks)
